SCHEDULE

08:00 - 09:00

Registration

09:00 - 10:30

Understanding sensory processing issues and the impact they play in the learning process

Morning Tea Break

10:30 - 11:00

'To know thy nervous system is to love thy nervous system' - Planning effective sensory diets

11:00 - 11:45

11:45 - 12:45

Respiration - Learning how to use the breath efficiently to support attention and learning - practical tools to use in the classroom, home and social setting

Lunch - Included

12:45 - 13:45

13:45 - 14:45

Rhythm and entertainment - Fun, interactive, effective tools and idea to organise the nervous system and support attention and focus.

Afternoon Tea Break

14:45 - 15:15

15:15 - 16:30

Relationship and its impact on regulation - 'How do I connect with my child?'

17:00

Adjourn

PLEASE NOTE:

* Workshop registration includes 'Break' and 'Lunch' meals, also handouts.

* Please refer to our website for workshop venue information. We recommend you book online at Sensorytools.net.

* Cancellations must be in writing and when received up to 21 days prior to the workshop, a refund will be given less a \$25 handling fee.

* Cancellations received between 20 and 2 days prior to the workshop will be subject to a 50% cancellation fee.

* No refund will be paid for cancellations received less than 48 hours before the workshop.

WHO SHOULD ATTEND

- * Parents
- * Educators
- * Care Givers
- * Pre-School Teachers
- * Child Care Workers
- * Occupational Therapists
- * Speech Pathologists
- * Physical Therapists
- * Physicians
- * Paediatricians
- * Other Professionals who work with children

7
Hours
CPD

PARTICIPANT FEEDBACK

- * "I found it so beneficial for my work with kindergarten aged children and supporting their families." (Preschool Teacher)
- * "Sensory issues didn't really matter much to me as a social worker until I attended this training! It was absolutely fantastic, very engaging and practical. I have attended a lot of training throughout my career, nothing as powerful and worthwhile as this one." (Social Worker)
- * "A great interactive training. Genevieve Jereb is an inspiring energetic presenter with wonderful examples, information and music. The day passes so quickly and leaves you wanting more." (Dept. of Education and Child Development)
- * "Applying Gen's concepts; the difference we observed within children's development physically and across curriculum areas was impressive. It is a basis of our programming. (Learning Support Coordinator)
- * "Traffic Jam was one of the best conferences I have attended and I have used info in my workplace with a ripple effect - educators and carers are also using Traffic Jam info to help direct their practices" (Occupational Therapist)

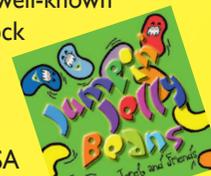

OBJECTIVES

- * To describe sensory integration, sensory modulation and sensory discrimination and the role they play in the learning process.
- * To identify the essential ingredients of an effective "sensory diet."
- * To gain awareness of associated problems relating to sensory processing challenges (i.e., difficulties impacting attention, behaviour, learning and social engagement).
- * To participate in, and learn to generate, activities and inputs designed to support children who are "traffic-jammed."
- * To gather ideas to take back to the classroom, home or clinic to use with all children whether they present with sensory processing challenges or are developing typically.
- * To increase strategies for effective engagement and connection to support overall emotional regulation, social relationships, focuses, attention, problem solving and motor planning abilities.

ABOUT GENEVIEVE JEREB:

Genevieve Jereb, OT is an Australian-born paediatric occupational therapist who presents on sensory processing disorders worldwide and online. She has worked with leading USA clinicians and lecturers, collaborating with the well-known international lecturers, Carol Stock Kranowitz, Patricia and Julia Wilbarger, Sheila Frick and Colleen Hacker.

During her ten years in the USA Genevieve was co-owner of the cutting edge treatment facility, Therapeutic Associates. With over 25,000 CDs sold, her released recordings, including **No Worries, Say G'day!, Cool Bananas, and Jumpin' Jellybeans** provide parents, professionals, caregivers and educators with fun and engaging, ready-to-use rhythmic songs and activities to support self-regulation for children whose brains are "traffic-jammed."

COURSE DESCRIPTION

This presentation is designed for therapists, teachers, parents, caregivers and other professionals who are interested in understanding the fundamentals of sensory processing and its impact on attention, behaviour, social engagement, creative thinking, purpose driven play and learning.

Genevieve Jereb OT offers **practical and powerful tools** to help support children to "learn and thrive from the inside out." Participants will be able to add beneficial experiences to the sensory diets of the children for whom they care.

Respiration and its effects on behaviour, learning and attention will be presented along with practical tools to support the breath at home, in the classroom or in the social environment. Participants will be exposed to **a multitude of activities involving rhythm and movement** to implement immediately when leaving the workshop.

A **relationship based approach** to interacting with your children to support problem solving, motor planning, creative thinking, building bridges between ideas and social connectedness will also be presented.

Ms. Jereb will address how sensory processing difficulties affect many children, both with and without the diagnosis of Autism Spectrum Disorders, Asperger's Syndrome, ADHD, ADD, learning challenges and other developmental and neurological challenges.

Sensory processing differences in children, both recognized and undetected, can significantly impact social and emotional relationships, behaviour, attention and learning in the classroom, home and clinic.
